

REMOTE PATIENT MONITORING

AN AFFILIATE OF

Your partner for better chronic care management.

Remote Patient Monitoring can paint a more complete picture of your patients' health and deliver higher-quality care for those living with chronic conditions.

WHY SHOULD I IMPLEMENT RPM?

Opportunity for Revenue

CMS reimburses up to **\$164 per patient a month** for RPM services.

Improved Patient Outcomes

RPM improves quality of life for those living with chronic illnesses, reduces readmission, and more.

Increased Patient Satisfaction

Patients in an RPM program are empowered by taking ownership of their own health through a network of smart devices and skilled staff.

All these benefits lead to better MIPS performance with Medicare!

WHO IS ELIGIBLE?

Your patient must be a Medicare beneficiary with at least one chronic condition that needs monitoring. These conditions include:

- CHF
- COPD
- Diabetes
- Stroke
- Infections

SMART DEVICES INCLUDED

State-of-the-art Wi-Fi/Bluetooth enabled smart devices are provided upon completion of enrollment.^A These devices include:

- Scales
- Blood Pressure Monitors
- Glucometers
- Pulse Oximeters
- Thermometers

^ADevice(s) supplied based on illness(es)

HOW CAN I GET STARTED?

Getting started is easy! Just sign our contract and doctor's order for your RPM patient—we handle the rest!
